Snow Plow Techniques

A discussion was held regarding the snow plowing and what works best for our area. One area of concern is how the grass is mowed in the ditches in the fall. The current manner does not have the grass cut back far enough from the edge of the roadway, this causes a ridge to form when clearing snow.

Maintenance Agreement with CAT

Councillor Brown indicated that a review of the agreement should be considered when discussions arise during the 2011 budget process.

Administration will look at the current TMR and Warranty.
